OUR PARTNERS

ScanBox

OUR PARTNERS

RATIONAL

(Germany)

It all began with the idea of combining steam and convection into a single appliance. In 1976, we therefore developed our first combi-steamer and have since been constantly working on continuously improving it.

FAGOR (Spain)

At Fagor Professional, they are world leaders in manufacturing equipment for the hospitality, catering and laundry sectors. Ever since we started in 1960, they've always had their sights set firmly on the future.

SCANBOX

(Sweden)

It all begins in the 1992. ScanBox Thermoproducts AB was launched . ScanBox is a professional Scandinavian manufacturer of thermo products for holding and transporting hot and cold food.

MIDDLEBY MARSHALL

(USA)

The Middleby Marshalls are a series of conveyor ovens that allow the user full control of the air flow in the baking chamber, resulting in optimal results in cooking product. The impingement ovens bake both faster and at a lower temperature than other ovens. Patented vertical columns of hot air move heat aerodynamically instead of using high temperatures. The streams of hot air remove the boundary layers of cool heavy air which tend to insulate the product.

CTX (USA)

The Middleby Marshall CTX infrared ovens provide an automated cooking platform designed to cook, bake, broil, sear, steam, and sous vide in high-volume kitchens with consistent quality results. Cook a variety of products with a push of a button, in less time, at lower energy cost, in a minimal amount of space with less cleaning.

TURBO-CHEF

(USA)

TurboChef rapid cook ovens utilize top and/or bottom air impingement assisted by precise bursts of RF energy to decrease cook times by more than 80% without compromising quality.

COOKTEK

(USA)

Created in 1994, CookTek® is the leading innovator in induction warming, cooking, and heated delivery systems for commercial kitchens and restaurants. The CookTek® mission is to change the way the world cooks, serves, and delivers food.

DESMON

(Italy)

Those who have chosen DESMON know they have a product created to last over time, appreciating day after day the quality of the materials, the highly reliable technology and the sober and always up-to-date design.

SALVA
(Spain)

The 3rd generation continues with the business created in 1943. Salva is among the 10 largest manufacturers in Europe. They are immersed in internationalising the company.

FIMAR (Italy)

Fimar S.P.A. since 1979, is an Italian company dedicated to the design, production and sale of professional catering machinery. Fimar numbers over 100,000 machines sold in one year, more than 5,000 distributors worldwide in 100 different countries, a production area of 38,000 square meters located in Villa Verucchio. We provide the highest quality of customer service and assistance.

IRINOX (Italy)

The Mission of the Irinox group is to establish itself as a company that, through its characteristics and values, promotes the development of its autonomous Business Units, on their respective markets, favoring their growth and solidity and coordinating their development.

ECF
(Andy Mannhart)
(Switzerland)

Andy Mannhart is a professional chef with a passion for the art of cooking and a clear mission: "To encourage everyone to go out and meet other people, because those everyday encounters open the door to a better world." This lifelong quest led him to create his eponymous brand in 1985, dedicated to the equipment and products chefs need to cultivate the art of gastronomy.

UBERT (Germany)

With six skilled employees, the first catering equipment was manufactured in Raesfeld from 1966 onwards. Mainly gas-heated deep fryers, roasting and grilling appliances. Two years later, since 1968, UBERT was the first company nationally to realise gastronomy turnkey projects. Since then, the scope of services has included gastronomy equipment including shopfitting.

INFRICO

(Spain)

INFRICO was born in 1986 with a clear objective: to generate the best cooling solutions adapted to the specific needs of each client. Technological vanguard, certified quality and the excellence of its products are the guarantee to support its commitment to innovation and that have positioned it as absolute leaders in the commercial refrigeration equipment.

STAR (USA)

With heavy duty gas and electric griddle, charbroiler and hot plate categories, as well as our world-class toasting, panini sandwich grill and hot dog product solutions, Star is among the largest manufacturers of heavy duty commercial cooking equipment in the world. Star Manufacturing was founded in 1921 in St. Louis, Missouri and quickly became a leading supplier of a wide range of restaurant equipment – our name became synonymous with hot dog (“red hots”) machines, fryers, popcorn makers and toasters. Over time we outgrew our manufacturing plant in St. Louis, and opened our current factory in Smithville, Tennessee in 1982, eventually expanding it in 1990.

CARTER-HOFFMANN

(USA)

Carter-Hoffmann builds quality equipment that manages the challenge of delivering hot, fresh food, to your guests. Our products range from holding and transporting to specialty products like microgreen growing cabinets and automated pick-up lockers.

FUTURMAT

(Spain)

The machines are manufactured in Barcelona, Spain by Quality Espresso S.A. who have more than 50 years design and manufacturing experience. Quality Espresso's mission is to be the leaders in design, production and distribution of professional food service equipment for the preparation of beverages related to espresso coffee, milk and tea. The brands manufactured by Quality Espresso are the benchmarks used by foodservice professionals when considering commercial espresso and cappuccino coffee machines. The Futurmat brand was created in Spain in 1978 and rapidly expanded to become the number one selling brand in Spain.

SOUTHBEND

(USA)

The South Bend Range Company began in 1898 in South Bend, Indiana as the Malleable Steel Range Manufacturing Company. Their owners have established the company to create what would become one of the best kitchen ranges and eventually a full cooking line. South Bend is now a division of the Middleby Corporation and is recognized as a global leader in heavy-duty commercial cooking equipment. With new equipment innovations in energy savings and safety, our products are considered the best in the industry by chefs, consultants, and industry experts.

BAKE-OFF (Italy)

Bake-Off have been designing and producing ground-based ovens, rotating ovens, convection and steam ovens, electrical and gas ovens for the last 30 years; we meet the increasing need of combining easy usage and wide range automatic functions, with great attention for taste and design. Since then, we have been designing and building our products aiming to guarantee the best technologies at the best price; our efforts are rewarded by the market with an increasing worldwide success of the BAKE OFF brand.

REPAGAS

(USA)

Repagas market leaders in manufacture and commercialisation of professional catering equipment since 1971, working to offer the Spanish and international market high quality long-lasting products. They manufacture a wide range of products to meet the needs of the catering sector: industrial kitchens, industrial fryers, gas hot plates, fry tops and ovens, among others.

ITV (USA)

ITV Ice Makers, Inc. is a dynamic and innovative U.S. Company, with its factory in Spain. After more than 30 years in the business, with over half a million customers in nearly 100 countries, they strive to surpass our world-renowned reputation of keeping these customers happy. Additionally, their commitment is to introduce new energy efficient ice makers that meet the ever-changing market and demand of new customers.

PERFECT FRY

(USA)

In 1986, Perfect Fry Company became a leading supplier to the foodservice industry with one of the most innovative and simple-to-operate countertop deep frying solutions in the world. Since then, Perfect fry has continued to build on its leadership in technology and reputation for quality — key reasons why foodservice operators look to Perfect Fry to meet their ever-changing food service needs.

NU-VU (USA)

All NU-VU ovens feature our highly effective and patented V-Air® technology. This time-tested technology over 30 years old creates faster bake times than any convection oven because of the V-Air® perfect heat distribution throughout the oven...top-to-bottom, side-to-side, and front-to-back. With V-Air®, the baker does not have to turn sheet pans or open the oven doors during a bake cycle. This results in better quality bakery products, and savings in labor and energy.

TOASTMASTER

(USA)

Since 1921, Toastmaster has been a trusted manufacturer in the commercial foodservice industry, producing countertop cooking equipment, toasters, drawer warmers, conveyor ovens, convection ovens, proofers and smokers.

VOLLRATH
(USA)

Since 1874, Vollrath Foodservice has been providing high-quality, commercial cooking and serving equipment that provides efficiency and ease of use in the demanding environment of commercial kitchens and foodservice operations. Our legacy and continued success is based on providing value with innovative high-quality products that stand the test of time and are trusted by chefs around the world.

KALERM (China)

KALERM, established in 2010, is a Chinese manufacturer specializing in fully automatic coffee machines. Their mission is to provide high-quality bean-to-cup coffee machines, aiming to be the top supplier in the field. Kalerm focuses on innovation, customer satisfaction, and customization, expanding its reach to over 65 countries.

PRÁTICA

(Brazil)

PRÁTICA, founded in 1991, offers cutting-edge equipment for the food preparation market, including an extensive product portfolio in the category of speed ovens. We understand the crucial role we play in the chain that begins with fields and crops and ends with providing prepared food to people. With our state-of-the-art technology and integrated product solutions.

CITROCASA

(Austria)

Citrocasa, known for its commercial citrus juicers, was founded in Austria. The company, originally named TMP GmbH, focused on distributing fresh juice and later developed its own juicing technology. Citrocasa's history is closely tied to the demand for high-quality, hygienic juicing solutions in the food service and retail sectors. The brand was established in 2005, with the company officially becoming Citrocasa GmbH.

FRANKE

(Switzerland)

FRANKE, a Swiss company, was founded in 1911 by Hermann Franke as a sheet metal business in Rorschach. It has since grown into a global leader in kitchen and washroom solutions, as well as other specialized areas like coffee systems and industrial components. The company is known for its stainless steel sinks, pioneering the use of this material in the 1930s.
